

The Miner.

FRIDAY, NOVEMBER 11, 1881.

Subscription, \$5.00 per Year.

Local Intelligence.

SATURDAY.

Fort Whipple has a new commanding officer.

Great attractions have been opened up at the Cabins.

Three passengers went out to Mineral Park yesterday.

Cool nights and delightful days are among the attractions of Prescott.

Heavy Wickenberg is taking out very rich ore from his Ironwood mine.

Charley Wirth went out to Chino Valley to day with a view of going into business at that place.

Master Arthur Robinson, formerly carrier for this paper, is now in the same capacity for the Democrat.

The Diana Saloon is attractive. The proprietors are making it a place of resort much sought after.

D. C. Thorne has gone out to the Silver Belt, which, by the way, is one of the best properties in Northern Arizona.

Mr. Muns of Upper Verde, is in town, and informs us that the public school in his neighborhood is progressing nicely.

Freight teams are making it a point to remain on the road between Prescott and Maricopa from one to twelve months.

The approach of winter threatens no relaxation of mining enterprises in any direction, and, with scarce an exception, the prospects are better than ever before.

A gentleman who assumes the cognomen of Major Duperre, is giving the boys in New Mexico a good pedestrian. Dups is appropriate.

Lone Pine District, Upper Verde, is looking up, and the present lumber lots are being prospeted, and great results are anticipated. The Gold King Ring is particularly mentioned as very promising.

Campbell & Roach, the two men wounded a few days since at Berry's store on the R. R., were brought into town to day by Lute Wilson. As he left home he heard several shots, and thinks that another man was killed there yesterday.

John Moon, Polly and the pinto colt are in town from Date Creek. They are en route to the San Francisco Mountains. John is armed, and was up to the man that commanded him to throw up his hands. This item is intended as a warning to road agents who stop travelers every league between H. H. Canyon and the burning center of San Francisco.

Major John, accompanied by Prof. C. S. Howe and Mr. J. H. Angell, visited Lynx Creek yesterday. We understand that Prof. Howe and Mr. Angell were quite pleased with the character of the country, and the prospects of Lynx Creek, and especially the Antelope, and are contemplating another trip to that section for the purpose of more careful investigation of Walker District.

We acknowledge a call this morning from Mr. Joseph H. Henney, Philadelphia. Present in the Arizona Consolidated Mill and Manufacturing Company property is a stone mason, Mr. Henney. Mr. Henney is engaged in general consulting for this concern, and has established a branch office to represent the Arizona office. The Arizona Daily and Weekly Democrat has been turned into an incorporated institution, and will hereafter be under the management of the Arizona Publishing Company, consisting of Paul Taylor, Gibson J. Turner and Munro May, with Mr. Masterson as chief editor. The newspaper is published at \$25,000. Mr. Taylor intends devoting himself to the Territory for a brief period, partly to consult with this paper, partly of a gathering, as he has no desire to be connected with the paper again. He is a gentleman, who bore an excellent reputation. He leaves a wife who is highly respected, and about to become a mother. She means the loss of an affectionate husband, who was taken away in the prime of life by the hands of divine providence, at a time when he was full of hope and looking to the future as of great promise.

Two Men Shot.

News comes to the Miner from Clifford & McCormick's camp, on the line of the Atlantic & Pacific R. R. to the effect that on Tuesday night a desperate character made a fight, wounding two men, fortunately killing neither. The guilty party was arrested, and is now enroute to the County Jail.

Shooting is too frequent by odds on the Atlantic & Pacific line, and vigorous measures will have to be resorted to in order to check it.

We never counsel violent or hasty action, but as the emergency presents itself, we say let there be a little wholesale hanging of bad characters.

Teritorial Warrants Paid.

I am now paying warrants upon the Teritorial General Fund up to and including No. 5, series of 1879. Interest on said warrants stops from this date.

T. J. BUTLER, Ter. Treas. per J. F. MEADOR, Dpty.

Prescott, October 29, 1881.

INDIAN KILLING.

The Navajos in for it!

Railroad Men Versus the Indians.

Teamsters should be ever cautious about leaving their camps during kind Providence, as the land is so dry, and it would be too bad through the carelessness of one man, to have all burned up.

Lute Wilson arrived from the railroad Saturday, bringing with him the two men, Roach and Campbell, who were accidentally shot there last week and left them at the hospital. One of them is not expected to live. Mr. Wilson departed for the R. R. this forenoon.

There is some rumor of the construction of a railroad from Tucson, via Florence and Phoenix, to join the Atlantic and Pacific on the Colorado River. We shall soon have railroads enough, if one-third of those now existing on paper become facts.

Two Men Shot.

News comes to the Miner from Clifford & McCormick's camp, on the line of the Atlantic & Pacific R. R. to the effect that the Indians did not abide, as it became evident of its prosperity, as like several more of the towns in Southern Arizona, the ethno-savages who were here with the Indians Mountain, have all been captured. Chief Geronimo, the leader of the Agency with his men, has been captured with six of his tribe and are now in nations to the north.

A court today the scouts is reported to meet at Fort Grant this noon. Field Headquarters at this place is expected will break up in a few days, as the chief officers connected therewith will return to your town. Major Arnold, A. A. G. O., has already left. The Chief Quartermaster, Col. H. E. French, is still here at present.

For a town on the railroad this place is quite orderly, the audience of the night being broken once in a while by the Indians. The Indian scouts who were here, and took part in the Chief affair, have all been captured. Chief Geronimo, the leader of the Agency with his men, has been captured with six of his tribe and are now in nations to the north.

In the meantime the Miner, which has good the stumps and trials its original back to the early part of the year, will go right along just as it goes, and has been added to our extensive library. We wish the new management unbounded success in all its undertakings.

SIGNAL AND TELEGRAPH.

The Signal or Mes is now in Mexico, under the management of Mr. Hubbard, is moving along smoothly and making money for the proprietors and for those persons who live in that portion. The pull has a capacity of 40 tons of ore per day, the ore being crushed from the Peñon, 12 miles distant, and is of quality just equal to that of the mine.

The Miners, which has good the stumps and trials its original back to the early part of the year, will go right along just as it goes, and has been added to our extensive library. We wish the new management unbounded success in all its undertakings.

MAY WANTED.

It is well known that many tons of Bullion Gramma Hay at my store, on the A. & P. Railroad. Bill Williams to obtain Address.

W. A. BERRY,
China Valley or Bill Williams.
October 5, 1881.

DR. SPINNEY,
